

## Product information according to Commission regulation (EU) No 66/2014

| Attribute Name                                                                                                                                         | Position    | Symbol                         | Value                   | Unit  |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|--------------------------------|-------------------------|-------|
| Model Denomination                                                                                                                                     |             |                                | TR84IT00FB<br>949598494 |       |
| Type of hob                                                                                                                                            |             |                                | Built-In Hob            |       |
| Number of electric cooking zones                                                                                                                       |             |                                | 2                       |       |
| Number of electric cooking areas                                                                                                                       |             |                                | 1                       |       |
| Heating technology (induction cooking zones and cooking areas, radiant cooking zones, solid plates) per electric cooking zone and/or area              |             |                                | Induction               |       |
| For non-circular cooking zones or areas: length and width of useful surface area per electric heated cooking zone or area, rounded to the nearest 5 mm | Right Front | L x W                          | 24,0 x 19.5             | cm    |
|                                                                                                                                                        | Right Rear  | L x W                          | 24,0 x 19.5             | cm    |
| Energy consumption per cooking zone or area calculated per kg                                                                                          | Right       | EC <sub>electric cooking</sub> | 201.5                   | Wh/kg |
|                                                                                                                                                        | Right       | EC <sub>electric cooking</sub> | 201.5                   | Wh/kg |
| Energy consumption for the hob calculated per kg                                                                                                       |             | EC <sub>electric hob</sub>     | 192.3                   | Wh/kg |

### EN 60350-2 - Household electric cooking appliances -- Part 2: Hobs - Methods for measuring performance"

#### Suggestions for a correct use in order to reduce the environmental impact:

- When you heat up water, use only the amount you need.
- If it is possible, always put the lids on the cookware.
- Before you activate the cooking zone put the cookware on it.
- Put the smaller cookware on the smaller cooking zones.
- Put the cookware directly in the centre of the cooking zone.
- Use the residual heat to keep the food warm or to melt it."
